## VIOLET VON AUGUST

I spoke recently with Violet regarding her success. Here's what she had to share!

**Viv:** What inspired you to choose your name?

**Violet:** I chose Violet VonAugust as my name because I love purple and my birthday is in August; and well, let's just face it... it's a cool name!

**Viv:** Is there a vintage celebrity who inspires you the most in your look?

**Violet:** I take my inspiration from so many different people, but my favorite icons of all time even though quite cliché are Marilyn Monroe, Audrey Hepburn, Doris Day, and Bette Davis. But I suppose my biggest inspiration comes from Lucille Ball.

**Viv:** Finally, what's your favorite go-to hair & makeup?

**Violet:** My go to look for my hair is always victory rolls and curls. I use a combo of a curling wand and a regular 1 inch barrel curling iron.

My makeup look varies quite often. I use Ipsy and I always try new looks and brands. But eyeliner and red lipstick are a must. My favorite lipstick is wet n wilds liquid catsuit. It's phenomenal for everyday wear and is super long-lasting.

Fun fact: I should buy stock in bobby pins and hairspray!
